DETAILED ACTION

This Office Action is in response to an Amendment filed 2/24/2006.

Currently, claim 1-12 are pending.

Allowable Subject Matter

1. Claims 1-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:
 - ...forming spacers at sidewalls of the etched pad oxide layer and the etched nitride layer;
 - forming a trench by etching the semiconductor substrate using the spacers and the etched nitride layer as a mask; and
 - after forming a liner oxide layer and a trench oxide layer filling the trench, forming the device isolating barrier by flattening the liner oxide layer, as required by claim 1; and
 - ...forming spacers at sidewalls of the etched pad oxide and the etched first nitride layer;
 - ...after forming a second nitride layer on top of the etched first nitride layer, forming a second trench by etching the second nitride layer and the etched first nitride layer;
 - after a conducting layer is formed to fill the second trench, flattening the conducting layer to expose the second nitride layer; and
 - forming the gate electrode by removing the second nitride layer and the etched first nitride layer, as required by claim 3.

Art Unit: 2812

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
